

25 Powerful Features

Revolutionizing School Management • One Platform, Endless Possibilities

1

Multi-School Management

Manage multiple schools under one account, each with its own records

Enables directors or school owners to handle several campuses from one login while keeping data safely separated.

2

Bulk Fee Reminders with Analytics Preview

Send targeted SMS reminders with total balances and cost estimates

Before sending, see how many parents will receive the message, total fees owed, and the estimated SMS cost.

3

Personalized Fee Messages

Each parent gets a tailored message

Automatically includes each student's name, class, and balance — improving clarity and payment response.

4

Live SMS Balance Tracking

View your remaining SMS credits instantly

Keeps you informed of your available SMS balance in real time so you never run out mid-campaign.

5

Fee Status Filters & PDF Export

Generate clear reports by status

Quickly sort between "Paid," "Partial," and "Defaulters," then export neat PDF reports ready for printing.

6

Responsive Design (Desktop / Tablet / Mobile)

Works beautifully on all devices

Whether in the office or on the go, the system adapts perfectly to your screen size.

7

Secure Login & Data Protection

Email/phone/Google sign-in

Each school's data stays private, with encrypted access for authorized users only.

8

Smart Class Setup

Dropdowns adjust automatically by school type

When you choose Nursery, Primary, or Secondary, the class options update instantly to fit that structure.

9

Real-Time Fee Balance Calculation

Automatic totals as you enter data

Balances update instantly as payments are added, reducing human error and paperwork.

10

Editable Fee Table (Instant Updates)

Change data without reloading

Correct or adjust student payments directly in the table – no need to refresh the page.

11

Multi-Term & Multi-Year Fee Tracking

View history by term or year

Review previous terms and years easily for comparison or reporting.

12

Pay-As-You-Go SMS System

Free platform, pay only for messages sent

Schools use Bigezolite free of charge and top up only when they want to send SMS.

13

Bulk Announcements & Alerts

Communicate with parents in one click

Send general notices (meetings, holidays, events) instantly to all or selected groups.

14

Instant Feedback Alerts (Snackbars)

Clear confirmations for every action

Each action shows a quick on-screen message – e.g., "Saved successfully" or "Invalid number."

15

Modern & Clean User Interface

Built with clarity and comfort in mind

A neat, purple-gradient layout that feels light, modern, and easy to navigate.

16

Smart Dashboard & School Switcher

Manage everything from one panel

Switch between schools, check key stats, and access main modules instantly.

17

Advanced Search & Filters

Find students in seconds

Search by name, class, or payment status – results appear instantly.

18

Fee Definition Module ("Fees to Track")

Define fees per class or term

Set what each class or year should pay once, and the system automatically applies it to all students.

19

Message Cost Preview

See SMS cost before sending

Prevents overspending by showing the exact cost of each campaign in advance.

20

Smart Validation & Error Checks

Automatic field checks

Detects missing or incorrect information as you type, reducing mistakes.

21

Inline Editing & Safe Deletion

Edit or remove records responsibly

Make changes easily with confirmation steps to avoid accidental deletions.

22

School-Specific SMS Settings

Each school manages its own sender ID

Allows every school to use its own SMS account and manage spending independently.

23

Account Status Control (Active / Suspended)

Smart access management

If a school's plan is inactive, access is paused until renewed – ensuring fair usage.

24

Built with Modern Web Technology

Fast, reliable, and scalable

Developed on the latest Angular framework for top performance, even with many records.

25

Activity & Message Logs

Every action is recorded for transparency

Keeps a clear trail of sent messages and financial updates for easy follow-up and accountability.
